In Re Halgankalli Tank.

When introducing the Survey Settlement into the village of Halgankalli of the Ramsandra Magni of the Madgiri Taluk, Tumkur Dt. a claim was put forward by Narayanappa and Ranga Swami Iyengar to 1/5th of the whole of the wet lands below the tanks in that village in accordance, as they stated, with orders that had been issued by the Chief Commissioner to that effect.

2. Petitioners had not a copy of the Chief Commissioner's Order in question, which however

1

I have since obtained, but had copies of several letters, Dockets &c. from the Nandidroog Superintendent, Deputy Commissioner Amildar &c. all bearing on the same subject, and directing in more or less distinct terms that 1/5th of all the lands watered by the Halgauhalli Tank should be handed over to petitioners. this case has been before the Revenue Authorities apparently from 1834 or earlier.

3. Petitioner states that all the land being now cultivated the Revenue Authorities had not handed over this land to them, that the ryots were willing to give over

each

each man 1/5th of his individual holding, but that petitioners did not want that, but wanted the 1/5th of the whole lands to be handed over to them in one block.

4. I asked several of the ryots (who were all present,) and each man agreed to give up 1/5th of his individual holding to petitioners but naturally enough each man refused to give up his entire holding so that petitioner might get his land in a block. Petitioners refused to have anything to do with their isolated bits of land, i.e. the 1/5th of every ryots individual holding.

5. Under Chituldroog lapse order

Order No. 17 of 20th June 1849 it was ordered that petitioner should receive 1/5th of the Govt. share of the produce of all the Battayi lands under this tank, and also 1/5th of the amount of Kandayam collections, this amount to vary year by year, as the amount of land under cultivation varied.

In this amount was to be excluded the collections (55½ Kons) for certain lands which had been in cultivation previous to the repair of this tank by the Kodigidars Ancestors. In accordance with above Order the Kodgidar has been in receipt of cash payments of about Rupees 200/ Rs 250/ a year ever

since

since.

6 In 1871 the Chief Commr. in Secretary's letter No. 3898/6 of 2nd November 1871 to the address of the Superintendent Nandidroog Division directs that the land referred to in previous correspondence (1/5th of the Aebkat of the tank, minus the land for which 55½ Rupees was paid, and referred in last para) be handed over to the Kodgidar under certain conditions suggested by Lieutenant Pole, the Executive Engineer who had inspected the tank, in his letter No. 336 of 16th September 71.

7. Why this order of the Chief Commissioner's was not carried into effect I cannot

ascertain

ascertain. The Deputy Superintendent Sunkur reported to the Nandidroog Superintendent on the 15th March 1871 that "there is no obstacle to the grant of 1/5th of the land to the Kodgidars as daffidarat land is available without encroaching on the rights of the present cultivation" and can only suppose that between March 1871 and the receipt of the Chief Commissioner's order the land must have been taken up by other ryots.

8. Petitioner bobbi some lands below the bank in the ordinary Kandayamotaare that held by Adinarayanapa bears assessment of Rs 81.12 and

that

that by Rangaswami Iyengar Rupees 74.4 some of this land is held by them jointly for "Janti Patti" and part by each independently.

9. The land below this Patti is divided into Survey Numbers which as a whole bear assessment as follows:

For Tabulation Statement see Appendix A

Dry crop		Rice Lands		Gardens		Total	
acres	Goontas	acres	Guntas	acres	Guntas	acres	Goontas
49.3 = Rs 31:4		+ 53.3 = Rs 234.8		+ 221.31 = Rs 1485 =		324.37 = Rs 1751:12	

from which deduct original cultivation on which Kodgidar have no claim viz:

Dry crop		Rice Lands		Gardens		Total	
acres	Guntas	acres	Guntas	acres	Guntas	acres	Guntas
13.13 = Rs 7.12		+ 3.12 = Rs 16.0		+ 59.8 = Rs 337.12 =		76.33 = Rs 361.8	

and the value of the remainder is

Dry crop		Rice Lands		Gardens		Total	
acres	Guntas	acres	Guntas	acres	Guntas	acres	Guntas
35.30 = Rs 23.8		+ 49.31 = Rs 218.8		+ 163.23 = Rs 1148.4		= 249.4 = Rs 1390.4	

A tabular Statement is appended to this Memo. 30/+

the whole of this land is at present occupied

occupied and therefore cannot be given over to the Kodgidars as they desire under the terms of Chief Commissioner's Order No. 3898/6 quoted above.

10. There is no doubt but that the claim of the Kodgidars is good, and that they are entitled to 1/5th of the land referred to above, or as that cannot now be given to them, to an equivalent in land elsewhere or to cash payment of corresponding value.

11. At the time of my enquiry into this case at Madgiri the Kodgidars expressed their unwillingness to accept land elsewhere, said they did not care about the money

money payment, that what they wanted was the 1/5th of the land below the tank and nothing else, and as I was not in a position to offer them any ~~other~~ terms, I merely informed them that the existing of other ryots to give the land to them was out of the question.

12. The whole of the land under the tank being now occupied the Kodgidars under 1/5th Cash payment system, can could never as long as the present Survey Settlement last, receive more than they can would be entitled to now viz. total wet assessment Rs 1366.12 ÷ 5 = Rs: 273.5.7 which may therefore be

be considered the full value of the Inam to which they are entitled, and whether this sum should be paid to them yearly in Cash, or land assessed to that amount handed over to them in Inam is a subject for the consideration of the Chief Commissioner.

13. The conditions suggested in Executive Engineer's letter No. 336 of 16th September 1871 are, "that Government" should reserve to itself the" right of at any time taking" possession of the feeder from" the Pumar with a view to" improve and enlarge it and" at the same time of raising" the bund of the tank or performing"

any

" any other work that may
" be deemed essential for the
" supply of the tanks below"
their conditions would I pre-
-sume still have to be observed
and moreover the continuance
of the Inam granted would
depend upon the maintainance
of the tank.

Major

Deputy Superintendent
Mysore Revenue Survey.

Bangalore
19th Sept 1876

V

14. The facts of the case are clearly stated in the annexed Memorandum by the Dy Superintendent of Revenue Survey. ~~fixes the facts of the case clearly. I have therefore adopted it in full.~~

15 The abstract translations of the depositions given by Adinarayanappa and Ramaswamy Iyengar before the Amildar of Maddagiri, which have been submitted by the Supdt of Revenue Survey, are also appended to this Memo: for ready reference.

16. The Superintendent of Revenue Survey remarks that the leading feature of the case is that, while Government undoubtedly directed that the land

should be handed over
to the Kodrpdars, it has
never been found expedient
or possible to carry out
those orders, nor would it
now be fair to the ryots
to take away their lands
so that the Kodrpdars
might obtain one-fifth
of the whole Akkat
in one convenient block.
He therefore proposes that
one-fifth of the assessment
of the lands concerned
or Rs 273-5-7 be paid
to the Kodrpdars, the
existing agreement as to
the maintenance of the tank
holding good. The alternative
is to find land for them
elsewhere bearing the
required assessment.

17 The Survey and Settlement Comr Letter No. S-38 of 16 April 77

thinks that it is now clearly impossible to meet the wishes of the petitioner Rungasamiengar as regards making land over to him. that land being occupied by Government ryots who are not willing to resign it in such form as would alone be of any use to the petitioner.

Admaranmappa, on the contrary, intimates his willingness to accept an exam & the value of his asserted ½ th out of lands in his own occupation, but Rungasamiengar asserts his right to the whole as he states that he is the mont-dar of Admaranmappa's ½ th. The Survey Commr is of opinion that we cannot entertain the claim of Rungasamiengar on Admaranmappa's ½ th, which must be separately

Vide his deposition

dealt with by the Land Courts.
There is therefore, in the S. Com^rs opinion.
no objection
to the grant of an inam
to the amount of 1/5 th of
the total amount of Rs 273-5-7
or Rs 54-10-8 to Admaranaiyka
out of the Government lands
held by him as stated in
his deposition.

Mis is not Kandiah Nonas
all Govt lands in the encumbrance
of Admaranaiyka who is now dead
& have not been sold away &
of revenue due by him.
5/8/85

18. As regards Kangasamypulle
and his 4/5 ths share which
amounts to Rs 218-10-11,
there is no means of giving
him land in inam below
the tank as originally
stipulated for, and he
refuses to accept it
out of his Pattahor
Govt land elsewhere
situated. There is therefore
no alternative but to
grant him an annual
Cash allowance of Rs 218-10-11.

In his deposition Kangasamypulle
agrees to have 1/5 th of each
myst's holding.

19. The Honble Colonel Anderson further states that from the papers now submitted it appears uncertain if Repairs alone were the condition on which the inam was to be granted or whether after maintenance was also included. He therefore thinks that it may be advisable to Examine the record of the original Grant in the Chief Commissioner's Office. If maintenance forms no part of the condition it might, he thinks, be advisable to allow Rangasamiengar to capitalize his 4/5 this Cash allowance Rs 218-10-11 at 20 times its amount or Rs 4373-10-4 Equal to an investment of that sum

at 5 per cent and thus close Runga Samiengar's connection with the matter. The same course, he says, must be followed with the holder of the remaining $\frac{1}{5}$ the share if he would accept it.

20. The grant of one-fifth of the lands under the tank in question was sanctioned in this office letter No $\frac{3898}{6}$ of 2nd November 1871 to the Superintendent of the Nandidroog Division. The transfer of the lands, however, has not yet been made, and it is found impossible to do it now as all the lands under the tank are in the occupation of ryots, who cannot, in justice, be ousted from their holdings. I have caused a search to be made

Further Note

in the Vernacular Records of this Office for His Highness' Firmans of 1st November 1830, to ascertain whether the maintenance of the tank in good repair is made a condition of the Grant. But the Firman has not been found as yet.

21. Whatever may be the conditions in it, I am of opinion that it is not advisable to make a grant of land. I beg to invite attention to this Office Pro: No. 9620/R 43 of 20th December 1876, in which, under orders from the Government of India, the enfranchisement of all existing Kodiyi inams was directed, and the Kodiyidars were liberated from their obligations to maintain the tank in good repair. While the policy of Government is to do away with the Kodiyi tenure in the province,

---

* This Firman is mentioned in Tuni Kacheri Head's letter addressed to Manager vide No. 6277/344 of 28 March 1871 —

a copy of the Firman referred to has since been found in the records of this office & is sent herewith. A Canarese translation of it is sent also.
5/1/85

* hereinafter sent

it is, I think, very undesirable, even if we had the authority to grant fresh lands on Kodji tenure. If land is to be granted in the present case, without imposing upon the grantees the obligation of maintaining the tank, it would be equivalent to the grant of a personal inam, and would require the sanction of Government.

22 It is reported that no lands are available under the tank to be granted to the petitioners, and they are not apparently willing to accept lands situated elsewhere. One-fifth of the total assessment of the wet lands under the tank to which the Kodjidars are entitled is Rs 273-5-7. This amount may be continued to be paid to them subject to the condition

of the wet lands under the tank or on the payment of the cash allowance of Rs 5766-15-8, as suggested by the Survey Commissioner, provided Government undertook to divide the said sum between the Kodipidars in proportion to the cost incurred by them respectively in the construction of the tank, such sums being paid to the Kodipidars separately by Government.

26. As regards Ramaswamy Mudaliar, the Dy Commr states that he declined to give his consent to any of the terms proposed in the Chief Commissioners Proc. above referred to, but

represented that he was prepared to relinquish his right in favour of Government, provided the authorities undertook to pay him the expenses incurred by Admiranappa's father on the tank plus a sum of Rs 7000, the amount refunded by Rangaswamiengar in the execution of repairs to the tank. The Commr adds that Admiranappa had sold $\frac{4}{5}$ths of his share to Rangaswamiengar.

27 Under the circumstances above represented, the Commissioner states that he sees no other

This is an unreasonable request. The Govt has nothing to do with the agreement between the parties.

27.8.77

solution of the case than to place the money in deposit and give notice to Ranger warning him that unless he takes it within 90 days, the money will be carried to the credit of Government.

Duffer Note.

28. It seems to me that the parties may be informed that if they do not settle their disputes amicably within 6 months from the date of service of notice on them, or if they do not establish their respective rights to the whole or

x by a regular Suit.

any portion of the amount offered by Govt, viz Rs 5466 15 8, within the period aforementioned, ~~the amount will~~ no further claims on their part will be entertained.

R P Thimbooly [?]
27. 8. 77

I think it wd be desirable to make a further reference to the Dep Commr to ascertain whether land to the extent of the share appropriate to Rangaswamiengar is now available under the Tank. It is possible that though the holders may not have actually relinquished lands to that extent, they may under present circumstances be willing to do so. About Ardunavanappa's share there is no difficulty as this can be apportioned out of his own holding. The extent required for Rangaswamiengar after deducting the land occupied in the grant to the Kodigedar should be intimated to the Dep Commr. Who might have the matter satisfactorily settled by [illegible] the Inams [illegible] Rangaswami [illegible]

The Dep Commr remarks that if the land be granted it must be in the form of an inam. It seems to me that it is obligatory on Govt to grant the 1/5 share either in land or in money, and the Govt have been distinctly committed to them by the order of 1871. The order of India does not preclude Kodigedars from holding lands ~~[illegible]~~ already granted as kodige, tho' the conditions attached thereto have been removed. The simple question as it seems to me is whether it wd be more expedient & economical for Govt to allow the Kodigedar to enjoy, i.e. to hold ~~[illegible]~~ the lands to which they are entitled, or a money equivalent paid annually. The former course wd be more to the interest of Govt I conceive, and if land can be now found available in one block, the grantees wd hold it on the payment of a quit rent under the recent rules. I do not quite see the force of the objection to this course. [illegible] 4/9

4. With reference to the Secretary's remarks above I beg to state that my chief objection to the grant of the land is that it has been already surveyed and assessed and not being in the possession of the Kodigadan, cannot be treated as Kodigi land and dealt with under the rules for the Encroachment of Kodigi lands without the special

Any proposal which the Kodigadan may make to purchase the land equivalent to the 1/5 share which they are entitled, provide that the whole land is a compact block, has not become available, may be taken into consideration by the Government hereafter. This is only a contingency and can be taken into account when the land is available.
Should under the circumstances

sanction of the Government of India

30. The payment of a lump sum as compensation to the Kodyedars would be more advantageous to Government as it does not involve the permanent alienation of assessment.

R. F. Thumboo C.
12/10/77

for, I have the Collector's letter of the 29th ult. a lump sum of Rs 5467, as proposed by the Survey Commr, but one of the Kodyedars has respectfully declined to accept the offer; I do not yet see how the Govt can enforce these terms, contrary to their consent. J.G.

13/4

The Inamdars of Shirol & Kurundwad have likewise been put in possession of land on the terms of a Kadim Grant, which would entitle them to have been granted exemption from assessment. And as there is very doubtful whether a sufficient amount of land could now be assigned to them which is not already occupied - the Collr thinks it has been thought more desirable that some of the occupying cultivators may have relinquished or may be willing to relinquish their lands - the Collr may be addressed to ascertain whether there are lands in one or more large blocks which can be given up by any of the Inamdars or otherwise be acceptable to the Kodyedars, but failing this

the proposal as made by the Settlement Officer viz that a lump sum of Rs 5461 be paid to the Kadyidars in lieu of all further demands is sanctioned & may be tendered, the terms of Counter being given either - which they will be at liberty to claim the payment, their individual shares of the sum being settled by Arbitration & failing their acquiescence the amount will be carried to credit of Govt & no further offer will be made -

Thomas Saunders
C.C.

14-9-77

31. The foregoing orders were communicated to the Commr of the Hundrong Dn in the Cheffoonnis Proceedings No 6110/57 of the 22nd Septr 1879.

32. With reference to the Proceedings above mentioned, the Commr submits copy of a letter No 26 of 23rd April last, from Mr Davidson, Special Relief Officer of the Hostapore Taluk to the address of the D/Commr, in which Mr Davidson reports that he visited the village of Halgamahalli and Examined the land below the tank; that before the Scarcity there was no waste land under the tank, but three of the outlying numbers have been assigned this year comprise an area of 4-27-0 assessed at Rs 12-0-0 as shewn in the margin; that there is consequently

Kundidroog Division
Superintendent's Office
Bangalore 28th March 1871.

To

The Secretary to the
Chief Commissioner
of Mysore

Sir,

In returning the Petition from Rungasawmy Iyengar and Audiiarnappa Kodigidars of Halagonahulli of the Mudagerre Talook, received under cover of Secd Official Memorandum No. 318 of 15th August 1870, I have the honor to submit for the Chief Commissioner's information Copy of a letter No. 804/395 of 18th November 1870, from the Deputy Superintendent of the Soonkoor District furnishing a Summary of the case.

2. From particulars subsequently called for, it appears that the area of the land under the tank is Kandies 152-8-12 after deducting 7 Kandies

14 Koodoos and 4 puddies of Garden and waste lands, and of this Extent Kandies 136 - 1 - 11 have already been brought under cultivation up to 1870-71 leaving a balance of Kandies 16-7-1 to be hereafter converted from dry to wet. The work executed to the Tank by the Petitioners is reported by the Amildar to Amount to Rupees 3595 - 11 - 6, and the Deputy Superintendent states that the 15th of the land now claimed by them can be granted without Encroaching upon the rights of the present cultivators, as sufficient land is available for the purpose.

3. As the Amildar's Estimate of the work performed is not to be relied upon, and the case is one in which it is desirable to ascertain with some degree of accuracy how far the Petitioners have fulfilled the terms of their Agreement, I beg to suggest that an Officer of the Public Works Department of no lower

and one fifth of the Rent made over to him, in consideration of his undertaking the work at his own Expence.

3. Govindavadani having in the year 1834, addressed a Petition to the "Dewani Cutcherry" of the Commrs Office, an order was sent from there to the Amildar of Mudgiri, directing the grant of one fifth of the produce of the Buttayi lands under the Tanks in question. Exclusive of the Manyam lands - provided he had, as he alleged laid out 3000 Pr on repairs; and this order was duly put into Effect.

4. In 1849 Govindavadani petitioned the Superintendent of the Cuttledoy Division, representing that the greater portion of the Buttaya lands under the Tanks above referred to had been given out on Mugadai (or money Assessment) and praying for permission to enjoy one fifth of the produce of the Buttayee.

land that remained, and a similar
quantity of that converted into Nay
dyat.— The Amildar was called
upon for a statement of the lands
irrigated under both tenures, and
on its receipt a Yadi was sent
to the Secretary to the Commissioner
recommending the grant of the produce
of both Puttayee and Nugadia lands
comprising 20 Kandies 12 Koodoos
and 10 Seers. Excluding 14 Kandies
12 Koodoos and 10 Seers of land
converted into the latter tenure in
the fourth year. To this sanction
was accorded and orders issued.

5. Govindavadani subsequently
died, and his son Audiyarnaik
being unable to undergo the expense
of repairing the Tanks thoroughly
solicited the Apportionment of
a Share in the produce to Ranga
Sawmy Iyengar of Hosakote
who promised to bear half the Ex-
penses towards the repairs. This

General

No. 13

Tumkur Division
Superintendent's Office
Bangalore, 14th April 87.

To,

The Secretary to the Chief
Commissioner of Mysore.

Sir,

Adverting to your docket
No. 32/Gl 13 of 3d Instant giving cover to
copy of your communication to the
Superintending Engineer of Irrigation
on the subject of inspecting and reporting
on the work executed to the Halagana
hully Tank in the Maddagiri Taluk,
I have the honor to append for the Chief
Chief Commissioner's perusal, copy
of a Communication received from
that officer in which he states that
it is impossible to form an opinion
on the value of work done some 8 years
ago to an old Tank such as the one
under reference, in the absence of the
fullest information as regards the
dimensions and condition of the bund
before

× No. 726. 5th April 1871.

before the repairs were commenced.
I would therefore suggest that it may
be sufficient if the Executive Engineer
reports the present Condition of the Sault,
that is, whether it has been brought
up to "Standard", or is in need of re-
pair to ensure its stability and
a sufficient supply of water for the
cultivable area below it. ...

I have the honor to be,

Sir,

Your most obedient Servant.

Asst Superintendent.

Mysore Public Works Department

No. 17

From The Superintending Engineer of Irrigation Works of Mysore

To the Secretary to the Chief Commr. of Mysore

Dated 1st June 1911.

Despatched

Enclosures No. 2

Subject

Sir

I have the honour to state that on the 3rd April 1911 I forwarded my estimates of certain Kaluves required during the ensuing season to the Malavalli Sub-Division and requested that the same may be inspected

S/.

Chief Engr. & Secy. 1911 1252 1911 1911 1911

and reported on by an Officer of this Department.

With reference to the above, has the honor to forward herewith copy of an Inspection Report on the Sauk, by Mr. Engledow, Overseer, from which it would appear that the Sauk has not been brought up to standard and now requires further repair.

II. Original Enclosure herewith returned.

W. B. Impatie Major D.S.O.
Offg. Asst. Deputies of Indian Affairs

No 140.

10

From
The Executive Engineer
Soonkoo-Chittledroog Dn
Soonkoo.

To,

As directed in your Docket No 243 of 1st instant forwarding certain Original Correspondence from the Superintending Engineer and Superintendent Chanderoog Division on the subject of the Kaloganhally Tank (No 199 Mudgherry Taluk), I beg to report having inspected the work.

2. The work appears to have been suddenly abandoned before the completion of its repair. There are gaps in the stone facing of the bund for which material was being collected, several lengths of the top courses of the revetment, averaging about 1/2 a yard in depth, are unpointed together with the earthwork necessary behind the course, nor extension of the bund at the village end is made but

not long enough to meet the high ground at a proper level, and the Sault has been left without a snake weir.

3. Mr Lyons and Shanhogue of the village informed me that there has been no attempt to complete the work, and that in order to protect their village from the water which, thro' the insufficient length of the land extension above noted, flows into it, when the Sault is about half full they are obliged to cut an escape at the other end of the land or stop the supply from the Nemaiu River by closing their channel. the Sault is thus rendered incapable of containing a sufficient supply of water for the irrigable land below it.

4. I beg to return herewith the three enclosures which accompanied your docket under reply.

I beg to remain &c

Indian Office, 16th May/71.

To,

The Offg: Superintendent
Canauliberry Division

Sir,

In reply to your letter No. 2 dated 30th Sept. 71, forwarding copy of a letter from the Deputy Superintendent of Tumkoor, reporting upon the repairs of the Mudagonakalli Tank, I am directed by the Chief Commissioner to state that the bunds referred to in Your letter No. 277 dated 28th March 71 may now be handed over to the Kodigadar on the condition suggested in para 7 of Lieut. Pole's letter No. 336 of the 16th Sept. last.

2. The Chief Commr. observes that the question of the Construction of an Ancient across the Pennar may be left for future consideration, if deemed to deserve attention - It seems to Col: Meade to be a work that would cost more than it would be worth.

The Sketch and Lt. Pole's letter No. 336 of 16th Sept. 71 are herewith returned herewith

appended correspondence

is forward the orders of the

Chief Commissioner :—

2 The circumstances of

the case will be found fully

set forth in the Memo: appended

to the letter of the Deputy

Superintendent Revenue Survey includ-

ed in this correspondence No.

692 of the 19th September last and

the

the Enamdar's case will be found represented in their depositions appended to the [illegible] of Major Lyrant No. 179 of the 10th ultimo.

3 It appears that it was originally directed that 1/5th of the land below the Halgonhalli Tank of the Madhyeree Talooka should be made over to the father of Adinarainappa one of the Petitioners, on certain conditions, these being the grant of 1/5th of the land below the tank. The father being unable to complete the work the son Adinarainappa in 1859 entered into an agreement sanctioned by the Commissioner with Rungswamiengar the other present petitioner to complete

the work making over to him 4/5th of the expected Enam in consideration Adinarainappa retaining the 1/5th for himself.

4 The work is reported to have been well done by letter of the Executive Engineer of Toomkoor No. 336 of the 16th September 1871.

5 The land to be given over as Rodiger Enam has never been given, it is all now in Ryots occupation, it appears that each Ryot has expressed his readiness to give up 1/5th of his land, but this the Petitioners will not accept, but want 1/5th of the lands

lands made over to them in one connected block:—

6 It is clearly now impossible to meet the wishes of the Petitioner Rungswamiengar as regards making land over to him, that land being occupied by Government Ryats who are not willing to resign it in such form as would alone be of any use to the Petitioner:—

7 Adinarainappa it must be noted intimates his willingness to accept an Enam to the value of his asserted 1/5th ait of lands in his own occupation but the other Petitioner Rungswamiengar asserts his

9 In the event of the proposed arrangement or any modification of it being sanctioned it will be advisable that intimation be given of the reservation by Government indicated in the 8th Para of the letter of the Superintending Engineer for Irrigation No. 336 of 16th September 1871 and in the 13th Para of the Deputy Superintendents Memo: of the 19th September last:—

10 From these papers it appears uncertain if repairs alone were the condition on which the Enam was to be granted or whether after

maintenance

maintenance is also included nothing about maintenance appears, it may be advisable to examine the record of the original grant in the Chief Commissioner's Office. If maintenance forms no part of the condition it might be advisable to allow Rungswamiengar to capitalize his 4/5 1/2 cash allowance Rupees 218-10-11 at 20 times its amount or Rupees 4373-10-4 equal to an investment of that Sum at 5 per cent and thus close Rungswamiengar's connection with the matter. The same course might be followed with the holder of the remaining 1/5 if he would

From,
The Executive Engineer
Trunkan Chittagong Dn
To,
The Superintending Engineer
1st Irrigation Works Circle
Dated 16th September 1891

Sir,

I have the honor to report that in accordance with orders No 1759 of the 10th August, I personally visited the Halayambully Bank in the Sandpheny Salute on the 13th Inst. in company with Major Bruce, the Deputy Superintendent.

2. The Bund appears to have been brought up to a safe standard. It is very fairly level throughout its length and the work generally is very neatly and nicely done. Since Mr Engledow's report the gaps in the stone facing have been filled in, and a bank of earth has been thrown up on the village side to prevent water from coming in. This Bank might be slightly prolonged and revetted with advantage, tho' it is not absolutely essential and the Kodigedars promised to do this work. There is

no waste weir, and I don't think one is necessary, as the local drainage is something very inconsiderable and the feeder from the River Pennar is too small to bring down a sufficient flood to endanger the Bund, but as a precaution I recommended that the embankment at the far end from the village which extends beyond the Bund proper, should be kept low so that the water could not rise above a certain height.

3. The feeder from the Pennar is in working order and was bringing in a good supply at the time of my inspection. There is one sand across the river, a bank of sand only being thrown up to divert the stream into the channel. This bank of sand is of course washed away with any heavy fresh and has to be renewed.

4. So far then as the works are concerned I do not see any objection to the claims of Kodiyidars, but I would request a consideration of the following particulars relative to certain banks below the Magnificently Bank, before it is

to Yankahully could be taken off from the other end of the Kala=
=gonhully Bund, though of course at a greater outlay.

9. The enclosures of yours under reply are herewith returned.

To,

The Survey & Settlement
Commissioner of Mysore

Survey Superintendents Office
Camp Belur 10th March 1877

Sir,

I have the honor, with reference to your Memo No. 1244 of the 29th September 1876, to forward translation of the written Kayfiyats taken from the Kodgidars of the Hálgánhalli tank. Ringswamiengar who is confessedly entitled to 4/5ths of the Inam, and by his own showing to the whole, refuses to accept in satisfaction of his claim the land now held by him on Patta. I think it would be to the interest of Government to grant the Kodgidars an annual cash payment of Rs. 273. 5. 7 being 1/5th of the total wet assessment of the land under the

tank

tank less original cultivation over which the Kodgidars have no claim.

2 Rangewamiengar it will be observed demands either to be put in possession of 1/5th of each Ryots holding, or to have all the money he has spent refunded to him.

I have the honor to be
Sir,
your most obedt. Servant
W. Grant
Superintendent Rev. Survey
Mysore

assessment of the lands concerned comes to Rs: 273·5·7. I propose that this sum be paid annually to the Kodgidars the existing agreement as to the maintainance of tank holdings. The alternative is to find land for them elsewhere bearing the required assessment.

I have the honor to be
Sir,
Your most obd. Servant

Total	27. 6	81. 12. 0

The above mentioned lands belong

belong to himself. —

That he agrees to accept these lands if they be given him as Kodgi Inam and in case they fall short with reference to his being provided for he is also willing to have his own Patta lands in Kada= =renhalli granted as Kodgi Inam. —

II He is the original Hakdar but has granted 4/5 of his right of Pancham Hissa to Rangswamiengar in consider= =ation of his having undertaken to complete the work of the tank at his own expense, at his (Adinárainappa's) request He (Adinarainappa) has therefore only 1/5 right of the Kodgi Inam. —

Before

Before the Amildar of Maddagiri
on the 23rd November 1876.

Kaifiet taken from Rangeswamiengar Kodgi-
=dar of Halgánhalli in the Maddagiri Taluk

I Govindavadhani father of Adinarainappa was, during the late Maharajah's time, granted Pancham Hissa Kodgi Inam on certain conditions with regard to the Halgánhalli tank. He commenced the work but could not complete it.— Government objected to give him the whole right over the Pancham Hissa until he fulfilled the conditions. In 1859 his son Adinarainapa came to me & requested me to undertake to complete the work on the condition of granting me 4/5 of the Pancham Hissa Inam retaining the remaining 1/5 for himself as his father had spent a small

small sum on the work. An agreement was accordingly written & registered. I was then ordered by Government to complete the work at an expense of Rs. 36,000 (Govt. estimate). The conditions were duly observed by me but my claim to the Kodgi Inam has not hitherto been granted although I have spent from 6000 to 7000 Rs. on the work trusting that Govt. will immediately grant me the Pancham Kissa lands. My case has been deferred till the Survey Settlt.

I do not agree to have my own Patta lands granted me as Inam as they are of the worst description and unfit to retain as Inam and I may perhaps resign them. I beg that 1/5 of at least each Ryots holding be granted to me as they (the Ryots) have all

all agreed to give 1/5 of
their respective holdings.
Their agreement appears on
the records in question. —
Also I request that, in case
the lands in question cannot
be granted, the whole sum
spent by me on the work,
may be repaid to me.

Adinarainappa merely
attempts to appropriate a
share of the right in this case
while he is in no way entitled
to the same. He gave his
Rajinámá to his share of
the lands held by both of
us under the joint Patta
tenure and Govt asking
me I agreed to have the
whole in my name. The
lands are in my enjoyment
since 6 or 7 years. Also I
beg that Pancham Hobjea
be paid to me at least

from

from the proceeds of the lands in question pending the final disposal of my case.

I now possess 4/5 of the Pancham Hissa right as I have already stated.—

I am also entitled to the remaining 1/5 of the Pancham Hissa Kodgi being mortgagee of the same.—

Thus I claim the whole Pancham Hissa Kodgi Inam as Adinarainappa has been deprived of the same as I have already related above.—

(2)

To,

The Superintendent of the
Nundidroog Division -

Sir,

In reply to your Official Memo: No: 2586/274 dated 31st August 1870 - forwarding a copy of the Secretary's No: 318 of the 15th Idem, with original Urzi from Ranjaswami Oppegar and Anchinaranappa Kodipidars of the Alalagana-hulli Tank, in the Mudgiri Taluk, for report - I have the honor to state that the Alalaganahulli Village was, many years ago, granted as Kurvamanyam to Govindávadáni (the late father of Anchinaranappa) who built the two Tanks of that Village at his own expence -

× herewith returned.

2 - His Highness the late Maha Rája of Mysore, on a petition presented by Govindávadáni, issued a Sirpoop, under date the 1st November 1830, to the Amildar of Mudgiri, ordering the Alálaganahulli Village to be granted to him on "Kaya" (or Progressive Rent) for a period of 5 years, for 647 Pagodas, at the expiration of which he was to have it on Rayem sotta tenure - and in the event of his carrying out the repairs to the Tanks at a cost of 2000/- Pagodas (the amount stipulated by him) the lands below them should be classified and one fifth of the extent made over to him in consideration of his undertaking the work at his own expence -

3 - Govindávadáni having, in the year 1834, ~~and~~ addressed a Petition to the "Diwán Cutcherry" of the Commissioner's Office, an Order was sent from there to the Amildar of Mudgiri, directing the grant of one fifth of the produce of the Battáyi land under the Tanks in question - exclusive of the Mánnyam land - provided he had, as alleged, laid out 3000/ Rs. on repairs;

and

and this Order was duly put into effect.

4. In 1849 Govindávadani petitioned the Supt. of the late Chittoor Division, representing that the greater portion of the Battáyi lands under the tanks above referred to had been given out on Nuzdiat (or Money Assessment) and praying for permission to enjoy one fifth of the produce of the Battáyi land that remained, and a similar quantity of that converted into Nuzdiat. The Amildar was called upon for a Statement of the land irrigated under both tenures; and on its receipt a Yadi was sent to the Secretary to the Commrs., recommending the grant of the produce of both Battáyi and Nuzdiat lands, comprising 120 Kandies, 12 Koodoos and 10 Seers - excluding 14 Kandies, 12 Koodoos and 10 Seers of land converted into the latter tenure in the previous year. To this sanction was accorded, and orders issued.

5. Govindávadáni subsequently died, and his Son Audinarayanappa, being unable to undergo the expense of repairing the tanks thoroughly, solicited the apportionment of a share in the produce to Rungasawmi Ayengar of Stockoté, who promised to bear half the expenses towards the repairs. This arrangement was sanctioned by the Commissioner, and the Amildar was instructed to have both their names registered.

6. As the Petitioners now state that they have completed the repairs, at an outlay of Rs. 5,000/- and request that the work may be measured and one fifth of the land made over to them, as granted in his Highness' Firmaun, I request the favor of your instructions in the matter.

Mysore Chief Commrs Office

Dated Bangalore the 14th June 1871.

To

The Offg Superintendent

Kundadroog Dy

Sir

Adverting to this Office Letter No 321/16 of 21st April last, and to previous correspondence on the subject of a claim put forwarded by Rangaswamy Iyengar and Andwarnappa to certain land under the Holagonahalli Tank, Madagere Taluk, I am directed to forward for your perusal the enclosed copy of a report submitted by the Superintending Enquirer of Irrigation, and to state that further information on several points is required to enable the Chief Commissioner to dispose of the claim.

By overseer Englefow D/16th May 1871.

2. It would seem that some years have elapsed since the abandonment of the work by the Kodigidars. It is requested that precise information may be obtained on this point, and enquiry made as to the cause of the stoppage

in the repair or restoration of the work.

3. The Chief Commissioner desires to know whether the incomplete repair of the Tank Works on the part of the Kodagedara as described by the Overseer, has resulted in an actual and existing loss to Government; what amount would be necessary in order to place the Tank in a proper state, and whether you would recommend that such repairs should be carried out by the Government.

4. I am directed to point out that the facts now reported by the Overseer of the Public Works Department do not seem to have been communicated to the Deputy Superintendent; and that they have been, apparently suppressed in the reports furnished from the Talook on the subject.—

I have &c

(Sgd) J. G. Clarke.
Offg Secretary.

P/140.

To

The Executive Engineer
Seemakoor Chittledroog Division

Toomkoos.

Sir,

As directed in your Docket № 273 of 1st instant, forwarding certain original correspondence from the Superintending Engineer and Superintendent Nundidroog Circle on the subject of the Halagaudanelly Tank (№ 199 Mudgherry Taloork) I beg to report having inspected the work.

Halagaudanelly 13-9-71

2. The work appears to have been suddenly abandoned before the completion of its repair. There are gaps in the Stone facing of the bund for which material was being collected, several lengths of the top courses of the parapet averaging about ½ a yard in depth, are unfinished together with the Earthwork necessary behind the courses; an Escharoni of the bund at the village end is made but not long enough to meet the high ground at a proper level, and the Tank has been left without a waste weir.

3. The Gowda and Shanbogue of the Village informed me that there has been no attempt to complete the work; and that in order to protect their Village from the water which flows

the insufficient length of the Canal Extension above noted, flows into it, when the Tank is about half full they are obliged to cut an escape at the other end of the Canal or stop the supply from the Permanent River by closing their channel. the Tank is thus rendered incapable of containing a sufficient supply of water for the irrigable land below it.

4. I beg to return herewith the three Enclosures which accompanied your Docket under reply.—

—Mudgburong

Coombor, 15th September 1871.

To,

The Superintendent of the
Nundedroog Division.

Sir,

With reference to your Official Memo. No: 302 of the 15th Ultimo (forwarding a copy of the Superintending Engineer's No: 1755 of the 16th idem) ~~and the previous correspondence on~~ the repairs to the tanks of Nalaganahulli in the Mudgiri Taluk - I have the honor to report, that I inspected this Tank in company with the Executive Engineer, on the 13th instant, and had every reason to be satisfied with the Stone work carried out by the Rodigidars; the few gaps in the Stone-work having been filled in - and also the earth work on the Bund - but what is wanted to make all complete, is a small extension of the Stone-facing near the Village, which I pointed out, at the Executive Engineer's suggestion to ~~the Rodigidars~~ Rungalaur Ayengar, and lowering the Bund at the N.E. end for a short distance, by about 2 feet, so as to admit the surplus water being carried off, and thus ensure the safety of the Tank; and this will be carried out immediately.

2. The Head Sluice to the Channel will be examined and specially reported on by the Executive to the Chief Engineer, and provided that this is, as it seems to be, in good working order - every precaution necessary seems to have been taken towards carrying this work out.

3. It has a good source of supply from the Penner River - and the Tank is such a fine one, that it is a matter of regret it was ever

made,

made over, as it has been - but I see nothing to show any suppression of facts on the part of the Builders, though his Report might have been fuller.

4 - I also inspected a smaller Tank near the larger one - where good work in the Stone facing has been done; and altogether, I am much pleased with what has been done, and consider that the Rodijedars have fulfilled their part very satisfactorily, and beg to recommend that they be granted the Land to which they are entitled.

Read

Letter No: 98 of 18th August 1877 from the Commissioner Nandi: Droog Division, forwarding Letter No: 449 of 4th idem from the Dy Commissioner of the Trankun District, reporting, as directed in this Office Proc: No: 913/49 of 18th May 1877, the wishes of Adwaranaspa and Ramyasamy Aiyyapen, Kodrpdars of the Halapanhalli tank in the Madapure taluk, respecting the proposal to pay them Rs 5466-15-8 as a consideration for their resigning their right to 1/5 of the lands under the tank

Order thereon :—

The extent of the lands under the tank, according to the Survey, Excluding an extent of Ac. 9 75. 33 assessed at Rs 361-8-0, which was under ~~occupation~~ cultivation before the Grant to the Kadirpdars, is Acres 249-4- with an assessment of Rs 1390. 4-0. Deducting from the above, Dry and Wet land of the Extent of acres 35-30. assessed at Rs 23-8-0, the Extent of wet land under the tank is Acres 213-14 assessed at Rs 1366-12-0. One-fifth of the above, or Acres 42-26-9/7 assessed at Rs 273-5-7,

has to be made over to Admaranaphha and Ramphasamingha. One-fifth of this extent, or 8-21-43 assessed at Rs 54-10-8 will have to be made over to Admaranaphha and the remaining four-fifths or 34-4-87 with an assessment of Rs 218-10-11 to Ramphasamingha.

2. The Chief Commissioner observes that Admaranaphha's share of land can be adjusted out of his own holdings as he has consented to such a measure. As regards Ramphasamingha, the Deputy Commissioner

is requested to ascertain
and report whether
land to the extent of
the share assignable
to him is now available
under the Treaty, as it is
possible that though
the holders may not
have actually relinquished
lands to that extent,
they may, under existing
circumstances, be
willing to do so. The
Dy Commissioner might
have the matter satisfactorily
settled by local
Punchayet in presence
of Revenue officers.

Office of the Spl. Relief Officer
Kostapere Taluk
Camp Kurudi: d/ 25th April/78

To. The Dy: Commissioner
Trinkut District.

Sir,

In reply to your docket No: 591 of 11: November 1877 & expedite No: 49 of 16 Instant, I have the honor to report that I have visited the village of Kalgamakulu, and examined the land below the tank - Before the scarcity there was no waste land under the tank, but three of the outlying numbers have been resigned this year.

They consisting:-

No: 113 Acreage - 8 Guntas - Assts: 8 Annas
No 121 — do: — 3.30 - do: — " — 10/4/6 —
No: 173 - do: — . 29 - do: — " — 1/8/-

Total - 4-27 Guntas — — 12/4/6

There consequently is neither a block of a-g-so: 42-26-97 with a population No: 273. 5. 7 nor one of a-g-so: 34-49-87 with

(2)

with a pepsonent Rs. 218. 10. 11 on
vacant under the tank. From
what the Ryots told me I do
not expect more land will be
resigned, and the number of
gardens below the tank bowed
I think in any case prevent
blocks of this size being
obtainable.

Name &c.

(Signed) J. Davidson
